## ***Innovative bio-product startup pitching, Finnish Embassy Berlin***

Dear Sir/Madam,

We are very happy to be able to invite you to participate in an investor pitching event at the Finnish embassy in Berlin between *2pm and 4pm on Tuesday 13<sup>th</sup> December.*

Finland, one of the leading countries internationally for innovation and the worldwide leader in Forestry Bio-Economy constantly produces young, disruptive companies that are increasingly reaching out into new markets.

The Innovative Bio Products programme is a platform that targets high-potential markets. Join us in Berlin in December to hear about the Finnish bio-economy ecosystem and to engage in dialogue with these highly interesting companies.

Several of the companies shown below are currently seeking financing for initial production plants either in Germany or Finland and will be happy to disclose more during and after the pitching event:

### **Forest of Lapland:**

Refine extracts from Lapland's trees, berries and plants on a natural basis for use in pharmacology and cosmetic products as well as for nutritional supplements.

### **Lumir:**

Have developed a new sprayable and biobased method to insulate sound.

**Metgen:**

Use biotechnology to unleash the full power of pulp and paper enzymes for improving production efficiency and lowering energy consumption in an affordable way.

**Paptic:**

Have a newly patented technology which enables the manufacturing of a revolutionary new fiber product for carrier bags and packaging with plastic-like properties.

**Wall Plus:**

Design and produce a fibre composite material that enables the Wall+ to be 3-6 times lighter than competing tile solutions for construction and indoor furnishing.

Following each pitch there will be an opportunity for Q&A as well as subsequent refreshments and areas for more private conversations.

We would be delighted to welcome you to the above event at the architecturally fascinating *Felleshus* in the Nordic Embassies complex at the following address:

Botschaft von Finnland  
Rauchstrasse 1  
10787 BERLIN

Please register by 5th December with Mrs Hannele Zilm-Schulz as follows: [hannele@findeconnect.com](mailto:hannele@findeconnect.com);  
0173 600 2111

Kind regards

Alun Jones
